

Bush Fire Advisory Committee

Minutes

14 October 2024

Disclaimer

No responsibility whatsoever is implied or accepted by the Shire of Kent for any act, omission or statement or intimation occurring during Council/Committee meetings or during formal/informal conversations with staff. The Shire of Kent disclaims any liability for any loss whatsoever caused arising out of reliance by any person or legal entity on any such act, omission or statement or intimation occurring during Council/Committee meetings or discussions. Any person or legal entity who acts or fails to act in reliance upon any statement does so at that person's and or legal entity's own risk.

In particular, and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for license, any statement or limitation or approval made by a member or officer of the Shire of Kent during the course of any meeting is not intended to be and is not taken as notice of approval from the Shire of Kent. The Shire of Kent warns that anyone who has an application lodged with the Shire of Kent must obtain and only should rely on WRITTEN CONFIRMATION of the outcome of the application and any conditions attaching to the decision made by the Shire of Kent in respect of the application.

Minutes of the Bush Fire Advisory Committee Meeting held at the Shire of Kent Office, Nyabing on 14 October 2024 at 3.00PM.

1 OPENING & ANNOUNCEMENT OF VISITORS

The acting chairman, Mr Ryan Sutherland, declared the meeting opened at 3:10PM.

2 RECORD OF ATTENDANCE AND APOLOGIES

Members
Mrs Christie Smith, Chief Executive Officer
Mr Grant Collins, Chief Bush Fire Control Officer
Mr Darren Hawley, Deputy Chief Bush Fire Control Officer
Mr Bradley Tapscott, Fire Control Officer (FCO)
Mr Tim Borgward, FCO
Mr Mitchell Smith, FCO
Mr Bradley Harris, FCO
Mr Scott Crosby, FCO
Mr Warrick Browne, FCO
Mr Lance Cooper, FCO
Mr Greg Hoble, FCO
Mr Ryan Sutherland, Community Emergency Services Manager

ADDITIONAL ATTENDEES:

Mrs Jessica Browne, Administration Support Officer
 Mr Jarrad Blair, Human Resources and Work Health and Safety Administration Officer
 A/AO Anika Keeling, Department of Fire and Emergency Services
 Mr Gary Mathewson, Infrastructure Manager, Shire of Kent

APOLOGIES:

Mr Jamie Smart, FCO
 Mr Patrick Smith, FCO
 Mr Eric Featherstone, FCO
 Mr Stephen Hawley, FCO
 Mr Jarrad Hoble, FCO
 Mr John Jolley, FCO
 Mr Kelvin Holmes, FCO

3 MINUTES OF PREVIOUS MEETING

BFAC Resolution 01/2024:

That the minutes of the Bush Fire Advisory Committee meeting held on Thursday, 04 April 2024 be confirmed as a true and accurate record.

Moved: Mr Scott Crosby

Seconded: Mr Darren Gray

Voting Requirements

Simple majority required.

4 BUSINESS ARISING FROM THE MINUTES

Nil.

5 CHIEF BUSHFIRE CONTROL OFFICER'S REPORT

Nil.

6 DEPUTY CHIEF BUSHFIRE CONTROL'S OFFICER

Nil.

7 COMMUNITY EMERGENCY SERVICES MANAGER

The CESM takes this opportunity to thank the Shire of Kent and the community, especially the CEO Christie Smith, CBFCO Grant Collins and Jessica Browne, for their support on commencing in this role.

Since commencing in June 2024, the CESM has focused heavily on the strategic goals outlined by the CEOs of the Dumbleyung, Kent and Lake Grace Shires. This has particularly involved understanding and reviewing the Shire's emergency management capacity, including planning such as the Local Emergency Management Arrangement (LEMA). Currently, the Dumbleyung, Kent and Lake Grace Shires are working to establish a combined LEMA and Local Emergency Management Committee, as well as to review local risk management and subordinate emergency management plans.

There has been a very heavy focus on reviewing training requirements to ensure work health and safety compliance. This has included completing a training needs assessment for the courses *Bushfire Safety Awareness* and *Firefighting Skills*. Subsequently, this has also involved liaising with the Shire's insurer, the Local Government Insurance Scheme (LGIS), and DFES to ensure the safety and insurance coverage of volunteers.

Regarding equipment, capability and safety, the Shire has purchased additional firefighting PPE as well as sought quotes for the purchase of two fast fill trailers, for which the Shire has been granted a total of \$16,000. A pre-season fire appliance familiarisation session has also been conducted at Nyabing BFB, with approximately 30 people in attendance. This provided a forum to discuss developing training needs requirements as well as to identify current gaps in equipment capability. For example, additional coupling converters are required to ensure that Shire and privately owned appliances can draw water from one another.

8 DEPARTMENT OF FIRE AND EMERGENCY SERVICES

Report attached from Acting Area Officer Anika Keeling.

9 NOMINATION OF FIRE CONTROL OFFICERS AND FIRE WEATHER OFFICERS

Legal Implications

In accordance with the *Bush Fires Act 1954* (WA) s 38, the local government may appoint bush fire control officer:

- (1) A local government may from time to time appoint such persons as it thinks necessary to be its bush fire control officers under and for the purposes of this Act, and of those officers shall subject to section 38A(2) appoint 2 as the Chief Bush Fire Control Officer and the Deputy Chief Bush Fire Control Officer who shall be first and second in seniority of those officers, and subject thereto may determine the respective seniority of the other bush fire control officers appointed by it.
- (2A) The local government shall cause notice of an appointment made under the provisions of subsection (1) to be published at least once in a newspaper circulating in its district.

Fire Control Officers – Additional Nominee (2024 – 2025)		
District:	Name:	Call Sign:
Shire of Kent	Ryan Sutherland	CESM Kent

BFAC Resolution 02/2024:

That the Bush Fire Advisory Committee nominates to the CEO for the 2024/2025 bush fire season the persons listed as successful nominees in the Minutes of this meeting to be appointed to the positions of:

- Fire Control Officer

Moved: Mr Grant Collins

Seconded: Mr Darren Gray

Voting Requirements

Simple majority required.

10 GENERAL BUSINESS

10.1 Water Requirements for Fire Hazard Reduction

The Shire Fire Hazard Reduction Notice currently requires that fire suppression equipment must meet conditions outlined for listed agricultural activities:

- Provide an operational mobile firefighting unit with no less than 600 litres of water per harvesting unit (recommended 1200 litres),
- Minimum 6 metres of hose (recommended 30 metres) with a controlled nozzle,
- Self-propelled fire units are preferred with trailer units being accepted only if connected to a tow vehicle at all times,
- Mobile firefighting unit GVM and/or GTM shall not be exceeded pursuant to WHS legislation to maintain a safe work environment.

BFAC Resolution 03/2024:

That the Bush Fire Advisory Committee endorse that The Shire Fire Hazard Reduction Notice require that fire suppression equipment must meet conditions outlined for listed agricultural activities:

- When one harvesting unit is operating, an operational mobile firefighting unit with no less than 600 litres of water (recommended 1200 litres) is required within a two-kilometre radius of the harvesting operation,
- When two or more harvesting units are operating, one or multiple operational mobile firefighting units with no less than 3,000 litres of water combined are required within a two-kilometre radius of the harvesting operation,
- Minimum 6 metres of hose (recommended 30 metres) with a controlled nozzle,
- Self-propelled fire units are preferred with trailer units being accepted only if connected to a tow vehicle at all times.

Moved: Mr Darren Hawley

Seconded: Mr Doug Smith

Voting Requirements

Simple majority required.

10.2 Training Requirements

On 30 March 2022, the Shire of Kent BFAC endorsed a Bush Fire Service Training Program, which was also endorsed by the Shire of Kent Council on 27 April 2022. The program established the course *Rural Fire Awareness* as one course forming the Shire standard of training for Farmer Response Brigade members. At the same time, the courses *Bushfire Safety Awareness* and *Firefighting Skills* were established as courses forming the Shire standard for members of Bush Fire (Settlement) Brigades (brigades equipped with a LGGS funded fire appliance).

In March 2022, the Shire of Kent's insurer, the Local Government Insurance Scheme (LGIS), published a risk assessment of volunteer bushfire fighter duties in the "Manual Task Risk Assessment". The risk assessment stated that "All VBF's (volunteer bushfire fighters) must undergo...minimal skills training in *bushfire safety awareness* and *firefighting skills*" (LGIS, Manual Task Risk Assessment, 2022, p. 4). LGIS is a mutual

Bushfire Advisory Committee Meeting 14 October 2024

indemnity scheme operated by Western Australia Local Government Association (WALGA), of which the Shire of Kent is an Ordinary Member.

LGIS, in correspondence with the Shire, have emphasised that all volunteer bushfire fighters are to undertake *Bushfire Safety Awareness* and *Firefighter Skills*, regardless of whether they are a member of a Farmer Response Brigade or Settlement Brigade. On 16 February 2024, DFES revised their Bush Fire Service Training Program, stating that the courses *Bushfire Safety Awareness* and *Firefighting Skills* are the “recommended minimum standard for all personnel undertaking bushfire suppression or planned burning activities.”

LGIS have informed the Shire of Kent that failure to comply with the Manual Task Risk Assessment (2002) does not rescind the insurance coverage of any volunteer bushfire fighter. However, LGIS have warned that the risk assessment evidences the standard of care owed to volunteers and that this has ramifications for the Shire’s compliance with the *Work Health and Safety Act 2020* (WA). DFES’s revised recommendation supports LGIS’s position in requiring specific training courses.

It is proposed that the Shire:

- a) revoke endorsement of the DFES Training Program (February 2022);
- b) The Shire of Dumbleyung BFAC endorse the DFES Training Program (February 2024);
- c) establish a 24-month training schedule in coordination with the Shires of Dumbleyung and Lake Grace for the provision of Bushfire Safety Awareness and Firefighting Skills training;
- d) Establish that all joining volunteer firefighters complete Bushfire Safety Awareness and Firefighting Skills training within nine months of having their membership with the Shire confirmed by DFES (via email). Failure to comply will result in termination of membership;
- e) all current volunteer firefighters of a Shire Bush Fire Brigade must complete Bushfire Safety Awareness and Firefighting Skills training within 24-months of the training schedule [at 5.] commencing February 2024.
- f) As an interim action, promote the training of Rural Fire Awareness (Online) for any member who does not have training;
- g) Review the Bush Fire Brigade Operating and provide a copy to all volunteer firefighters to outline roles and responsibilities;
- h) Establish a volunteer bush firefighter induction package be created which outlines roles and responsibilities, including regarding training, for all joining volunteer firefighters to read and return a signed copy to the Shire when submitting their membership application.

BFAC Resolution 04/2024:

That the Bush Fire Advisory Committee review the Shire of Kent Bush Fire Service Training Program (2022) in March 2025 at the proceeding meeting of the committee.

Moved: Mr Tim Borgwood

Seconded: Mr Scott Crosby

Voting Requirements

Simple majority required.

BFAC Resolution 05/2024:

That the Bush Fire Advisory Committee endorse that the Shire of Kent establish a 24-month training schedule in coordination with the Shires of Dumbleyung and Lake Grace for the provision of Bushfire Safety Awareness and Firefighting Skills training.

Moved: Mr Doug Smith

Seconded: Mr Scott Crosby

Voting Requirements

Simple majority required.

BFAC Resolution 06/2024:

That the Bush Fire Advisory Committee endorse that the Shire of Kent, as an interim action, promote the training of Rural Fire Awareness (Online) for any member who does not have training.

Moved: Mr Grant Collins

Seconded: Mr Scott Crosby

Voting Requirements

Simple majority required.

BFAC Resolution 07/2024:

That the Bush Fire Advisory Committee endorse that the Shire of Kent review the Bush Fire Brigade Operating and provide a copy to all volunteer firefighters to outline roles and responsibilities.

Moved: Mr Warren Browne

Seconded: Mr Doug Smith

Voting Requirements

Simple majority required.

BFAC Resolution 08/2024:

That the Bush Fire Advisory Committee endorse that the Shire of Kent Establish a volunteer bush firefighter induction package be created which outlines roles and responsibilities, including regarding training, for all joining volunteer firefighters to read and return a signed copy to the Shire when submitting their membership application.

Moved: Mr Greg Hobley

Seconded: Mr Darren Hawley

Voting Requirements

Simple majority required.

10.3 Incident Attendance and Communication Logs

Shire of Kent host a WhatsApp group 'SoK Fire Services'. This assists in the communication during fire incidents, it is not to be used to report the emergency – that should always be directed to 000 immediately.

The group allows all ground responders to communicate outside of the two-way radio system and maintain communication across various layers of the emergency – Logistics, Community alerts, SOK Administration etc

This communication system acts as a record for the Shire of Kent during incident reporting. Recently a setting was implemented 'disappearing messages' this function deletes messages that are seven days old, losing records and communication logs from that period. This setting has been changed back to not allow this to take place (9th October 2024) – however, we will need to monitor this function doesn't switch back.

It is proposed that the Shire implement these methods to obtain records during a fire incident:

- a) A universally accessed Google Form – see link below.
- b) Google Forms allow a form to be copied and edited to the recent incident details and can be send out via a link to WhatsApp, Social Media or Email.
- c) Those that attended an incident are encouraged to complete the form and have their details captured.
- d) The form allows us to maintain current records and assess any damages or injuries around our volunteers.
- e) Information is collected into an excel spreadsheet that can then be submitted to DFES

BFAC Resolution 09/2024:

- (1) That the Bush Fire Advisory Committee endorse the use of WhatsApp as the primary means of recording attendance and departure at incidents. The WhatsApp function setting which removes sent messages 90 days after being sent is to be activated.
- (2) CESM Ryan Sutherland is to consult with CESM Cindy Pearce (Shires of Broomehill-Tambellup, Katanning and Woodanilling) regarding WhatsApp incident attendance recording procedures.

Moved: Mr Darren Hawley

Seconded: Mr Tim Borgward

Voting Requirements

Simple majority required.

10.4 Shire of Kent Fuel Access

Each Town Brigade response vehicle has a Fuel Card allowing fuel access to commercial fuel bowsers. They are also issued a Shire of Kent Fuel Fob, which allows access to the fuel facility within each Shire Depot as a backup.

The Nyabing & Pingrup Works Depots are open during the day, and closed after hours, the Fuel Facility is locked when not in use. Access to the Depot & Fuel is available through Master Key: DP2The Fuel Facility then requires a Fuel Fob to start the pump. Master Keys are issued to Staff, for work related use. Some staff are also members of the Brigades.

It is proposed that the Shire:

- a) Define the expectation of Shire Employees to assist with Refuelling the Fire Trucks.
- b) Via CESM, investigate establishing Liberty service station, Pingrup as a vendor for fuel for the Shire of Kent.

BFAC Resolution 10/2024:

That the Bush Fire Advisory Committee endorse the use of the Shire of Kent fuelling facility located at the Shire's yard at Pingrup:

- a) FCO/Captain Darren Gray, Nyabing BFB, is to be issued a Shire key and ensure that access can be made at the Nyabing yard; and,
- b) FCO/Captain Tim Borgward, Pingrup BFB, is to be issued a Shire key and ensure that access can be made at the Pingrup yard.

Moved: Mr Grant Collins

Seconded: Mr Tim Borgward

Voting Requirements

Simple majority required.

10.5 Use of Weather Stations and declaring Harvest Vehicle Movement Bans

The committee discussed the use of private weather stations, including the process when declaring Harvest Vehicle Movement Bans within the Shire’s zones.

The Origo weather stations are to be used as a guide for declaring HVMB and the CESM will have controlled access to the network. Farm maps are required to assist in identifying the location of stations.

The use of weather stations is to be as a guide only when declaring and lifting HVMB. CBFCO Grant Collins reminded all attendees that if one weather station is indicating a Fire Behaviour Index (FBI) of 40 or greater during a Fire Danger Rating (FDR) of High then a HVMB must be declared. However, all weather station owners were reminded to be aware of faults (e.g. outlying data) in the monitoring and calculation of weather conditions and, subsequently, the FBI.

BFAC Resolution 11/2024:

That the Bush Fire Advisory Committee endorse that, at the discretion of the CBFCO, when 50% of the Shire of Kent no longer indicates a Fire Behaviour Index of or in excess of 40 (and a total fire ban is not in effect) a HVMB may be lifted.

Moved: Mr Darren Hawley

Seconded: Mr Tim Borgward

Voting Requirements

Simple majority required.

10.6 Local Government Grant Scheme Budget

The Shire has been granted the following from the Local Government Grant Scheme (LGGS) for the Financial Year 2024 – 2025 for Bush Fire Brigades:

Approved Operating Grants: \$73, 600

Approved Capital Grants:

<u>Brigade</u>	<u>Description</u>	<u>Amount</u>
Nyabing Town BFB	Fast Fill Trailer	\$8,000
Pingrup Town BFB	Fast Fill Trailer	\$8,000

The committee discussed the suitability of prospective trailer designs, including those currently operated by the Shire of Lake Grace. Additionally, the committee members discussed that a collective grant of \$16,000 may provide, potentially, a tandem fast fill trailer which included lighting, power, a side pumping and standpipe arm. CBFCO Grant Collins suggested that this design may require up to \$20,000 of funding. FCO Tim Borgward suggested that the Shire may seek funding support via Woodside Community Grants scheme.

BFAC Resolution 12/2024:

- 1) That the Bush Fire Advisory Committee endorse that:
- a) The CESM liaise with, and seek a variation of the current grant funding from the Local Government Grant Scheme (LGGS) to:
 - I. Combine the two approved capital grants amounts of \$8,000; and,
 - II. Determine whether other projects or designs of trailer may be sought for the Shire using the capital grants funding awarded for the financial year 2024/2025.

Moved: Mr Grant Collins

Seconded: Mr Scott Crosby

Voting Requirements

Simple majority required.

11 MEETING CLOSED

The meeting was declared closed at 16:32PM.

DFES Upper Great Southern Kent BFAC Report 14 October 2024

Many thanks to all of your continued support in training and mitigation across the Winter/Spring period. We would like to emphasise that we are always here to support local brigades and FCOs.

Key Messages

Harvest Water Bomber Support: To utilise these resources effectively, **call for them early** to minimise turnaround time and ensure a **Ground Controller** is allocated with Talk-Around selected on the radios to communicate with the aircraft (Your local CESM/AO/DO can assist).

High-Season Fleet: This year, during the 2024/25 high-threat period, the Upper Great Southern has a plan in place to support high-risk areas with additional appliances when they become available. These appliances are currently being delivered throughout the region.

Reporting: With harvest approaching, we are encouraging FCOs and brigades to ensure that all fires are being reported to 000 (ComCen). This assists in collating information to better understand the incidents throughout the region and ensures that the documentation supports landholders who lose property/machinery due to fire.

Lithium-ion batteries: Last year, firefighters responded to 64 structure fires caused by lithium-ion batteries, up from 34 in 2020. Firefighters have already been called to 32 of these incidents in 2023, with the State now in its busiest period of the year for residential fires. Information on lithium-ion battery fires and prevention tips can be found at <https://www.dfes.wa.gov.au/hazard-information/fire-in-the-home/lithium-ion-batteries>.

Smoke Alarms: An alarming 75 per cent of deaths caused by home fires last year occurred in properties that were not fitted with working smoke alarms. Change your smoke alarm battery every year if it has a replaceable battery; test it every month by pressing the 'test' button and clean it twice a year with a vacuum cleaner to remove cobwebs and dust.

All smoke alarms, regardless of the type or model, need to be replaced every ten years. For more information on maintaining your smoke alarms, visit www.dfes.wa.gov.au/smokealarms

Key Circulars

66/2023 – Updates to PPC and Uniform – New lightweight material is available for LG Bushfire Brigades to order.

DFES Upper Great Southern Kent BFAC Report

14 October 2024

64/2023 – All Hazards Deployment Register – Online Operational Interstate/International Deployment planning tool for all availability and interest from all volunteer fire services

All circulars can be found by logging in to the Volunteer Portal

Staffing

Upper Great Southern region has a few staff movements in recent months and we remind the Shire to use the Narrogin reception email or the generic one for contact in your area is AOEast Upper Great Southern AOEastUpperGreatSouthern@dfes.wa.gov.au. Reception number is 08 68323 110.

Volunteer Hub

The DFES Volunteer Hub has many of the circulars, training calendars and PPE ordering, systems and a wealth of information which assists all volunteers. Log on today to see what you can learn.

DFES Reviews are publicly available here: <https://publications.dfes.wa.gov.au/>

As an agency, we are about continual improvement; the lessons highlighted are explained in detail in the full report.

DFES Upper Great Southern Kent BFAC Report 14 October 2024

The six lessons are outlined below:

Lesson 1:
Pre-emptive preparation

Preliminary preparations made by the SOC, MOC, and ROCs based on the predicted weather, relating to resource stand-by and deployment, were deemed successful and should be considered for future events.

Lesson 2:
Early communications to pre-formed teams

Personnel involved in the pre-formed teams (PFT) were able to deploy with little notice, even those not on-call. While this was successful, there should be a more coordinated roll out of the information to ensure sufficient information is provided to those attending.

Lesson 3:
Role clarity of communication lines

Improved communication is imperative during incidents, for not only battling bushfires but for planning and resource deployment.

Lesson 4:
Contingency plans for identified locations

Facilities at or close to the fireground need to ensure they are in safe identified locations, with contingency plans in place.

Lesson 5:
Planned and coordinated community communication

There is an opportunity for improvement when it comes to community messaging to ensure consistent, timely, coordinated, and current messaging is always used.

Lesson 6:
Wider engagement at event locations

Learning opportunities are present during and after all incidents and should be actioned and embraced more widely.

For DFES assistance, the Regional Duty Coordinator can be contacted on 1800 865 103 at any time.

Many thanks,
Anika Keeling
Acting Area Officer Narrogin East

AOEastUpperGreatSouthern@dfes.wa.gov.au

OPERATIONAL CONSIDERATIONS

(Checklist for first arriving Firefighters)

The checklist below is a list of operational **considerations** for the first arriving fire crew when giving the first SITREP to COMCEN (first **15 minutes** then every 1hour afterwards). COMCEN can get you Incident Weather also.

P

POSITION AND PROPERTY THREATENED

- Assess the situation – where is it? Nearest cross road?
- Exposures at risk/critical infrastructure? House? Shed? Tower?

A

AREA

- Size of fire (Length x Width) – estimate only

F

FUEL DENSITY AND TYPE

- What is burning? And estimate how fast it is moving (ROS)

T

TIME TO CONTROL

- Establish IMT (Who is IC, what Sectors?)
- Decide on strategies to extinguish/ make safe
- Delegating key functions – get help from others
- How many hours to get it contained? Roughly?

A

ASSISTANCE REQUIRED

- Traffic Management & Road closures?
- Regional Manager to assist? What do you need help with?
- Additional resources (**ask early as it takes time to arrive**)?

C

COMMUNICATIONS AND CONTROL POINT

- Radio frequencies/Communications plan
- Location of control point
- Media and public advice/warnings – 1800 718 288

S

SURFACE WIND STRENGTH AND DIRECTION

- Send SITREP
- Safety is first priority

COMCEN: 1800 198 140

UGS RDC 1800 865 103

DFES Communication Centre (ComCen)**1800 198 140**

- **000 to report bushfire** Email: dfescomcen@dfes.wa.gov.au
- Provide an incident update / situation report (see below)
- Request Incident Weather Forecast
- Request DFES assistance / to attend.
- Contact WA Police, Main Roads, Western Power

DFES Regional Duty Coordinator**1800 865 103**

- Request water bombers
- Request DFES assistance / to attend.
- Request DFES to meet machinery costs **before** engaging contractors

DFES Public Information**1800 718 288**Email: statepublicinfo@dfes.wa.gov.au

- Issue Community Warning (Advice, Watch & Act, Emergency Warning)
- Update or change an existing Community Warning

Telephone Warning System**1300 566 588**

- Sends alerts to home phones & mobiles.
- Must be used for Emergency Warnings

Draft – Training Schedule 2025 – 26
